

Dennis Doerrich

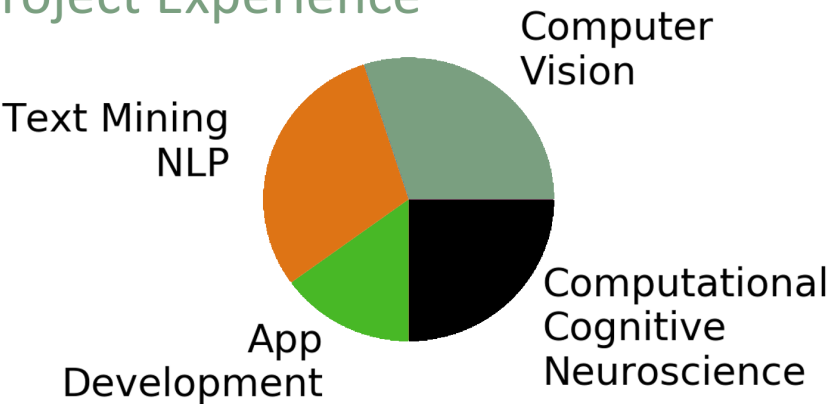

From my Bachelor in Physics I learned primary one thing: **There is no problem, that can't be solved**, assuming dedication and time. With a solid quantitative background I jumped right into the Master of Artificial Intelligence. Now, after projects in various fields of Data Science and AI, I am looking forward to deepen my knowledge by combining an internship and my Master thesis.

Education

Project Experience

- 14 June 1993
- German
- dennis.h.doerrich@gmail.com
- +49 15733282039

Professional Skills

- Python, Matlab
- SQL, Java, C++
- HTML, CSS, JS

Key Skills

- Problem Solving
- Analytical Thinking
- Team Player
- Curious

Languages

- English
- German
- Spanish
- Catalan

Hobbies
